CHECK WEIGHER

Up to
840
Bags per hour

- High reliablity
- Durable construction
- System integration
- Customizable
- Low maintenance

Description

CKW 60 series package-check&sorting scale is designed for the on-line package checking, sorting and statistic analyzing. The scale can distinguish package weight range covered from 20kg ~ 60kg. the machine is embedded hi-speed dynamic weighing technology, adaptive noise-free regulation technology and all-in-one production technology. Depending on these advanced technology, the machine's checking speed can reach 14 Bag per minute. This machine is widely used in electric/metal parts, furniture parts, pharmaceutical, cosmetics, chemicals industries, rubber&plastic production online sorting, check-weighing application.

CHECK WEIGHER

WEIGHT RANGE	STD : 20 - 60 KG
INCREMENTS	20 G
WEIGHING LENGTH	STD. : 1270 MM
BELT WIDTH	STD.: (800MM)
BELT SPEED	< 33 M/MIN (ADJUSTABLE)
SORTING ZONE	UNDER, OK, OVER
BELT SURFACE HEIGHT	390 + 30 MM
SCALE RACK	STAINLESS STEEL
CONVEYING TABLE	304 STAINLESS STEEL
CONVEYOR DIRECTION	• FROM LEFT • FROM RIGHT (IF FACE TO PANEL)
OP PANEL	TOUCH SCREEN
ALARM	• TRI-COLOR LAMP TOWER • RED-LIGHT LAMP
INTERFACE	RS232, RS485
POWER SUPPLY	380VAC, 50/60HZ, 1500W
ENVIRONMENT	TEMPERATURE : -10C - 40C

Feature

☑ Modularized structure for easy assembly

☑ Seperated under, ok and over zone

☑ Auto switch from dynamic to stable weighing

☑ Adjustable display hold time

☑ Store Max 10 items check zone

☑ Product statistic include : total, under & over

☑ Hi-speed AD conversion

☑ Auto-zero-maintain in stable

☑ Power failure protection

☑ Belt speed adjustable

☑ IP54 protection

☑ 380VAC, 50Hz, 1500w
